6. Applicant permission for publication of contact details in List of Certified Fibrous Plasterers

Under GDPR Legislation you must give your express permission for your details to be published on the Bectu Branch website(s), which are openly accessible to the general public.

The objective behind becoming graded through the PAS is generally to prove your experience, competence and qualifications within the various disciplines that make up plastering (fibrous). Then potential employers (production companies, producers, HODs etc) can assess your standing and capabilities when considering you for current and/or future employment.

In order to produce an accessible Certified Fibrous Plasterers Registry, Bectu need to produce a list that can be published openly through the Internet and any other suitable medium. If you wish to be included on this list you must give your express permission for Bectu to publish these details.

Please complete all the sections shown below and put a cross in the appropriate 'Permission to Publish' boxes next to the information you are happy to have published. Sign and date in the boxes provided to signify you are giving your express permission for the marked details to be published in the public domain

Any information provided here NOT marked with a cross as having your express Permission to Publish will be kept on file for use by Bectu but will NOT be published in the public domain.
